

*Stile Collections*

*Rubine- Indulge in Aqua lifestyle, a leading brand of Italian origin has been active in the bathroom & kitchen industry since the turn of the millennium. It is a young company managed by energetic people aimed to offer products which suffice for innovation, technology and quality. Our challenge started with the premise of coming up with novel designs to answer to the various market demands and to provide a complete solution for your bathroom & kitchen. Today, we have a spectrum of kitchen & bathroom items varied in designs to fulfill the needs of different markets, ranging from middle to high-priced. Rubine also knows that the world, your world, needs care. We use recyclable raw material as much as possible and develop faucets that are complied with the Singapore water efficiency standards.*

*Time spent in the bathroom & kitchen shall never be a dull experience. Here at Rubine, we are committed to help you realise your dream bathroom & kitchen as a true reflection of your lifestyle....*

*Rubine STILE 9000 series is a documentation of pure Italian taste. With squared line and ergonomic handle, STILE 9000 series transforms a tap into a timeless beauty that will always continue to be the perfect bathroom & kitchen companion. Due to demand, our team comes up with unprecedented rectangular designs in model 9068 and 9069. The STILE 9000 series consists of bidet mixer, shower & bath mixer, concealed shower & bath mixer, and basin mixer in two sizes to fit both table-top and under-mounted washbasin. To complete the range, we also offer two kitchen mixers for your pick.*

*STILE 9000, opulent and stylish.*

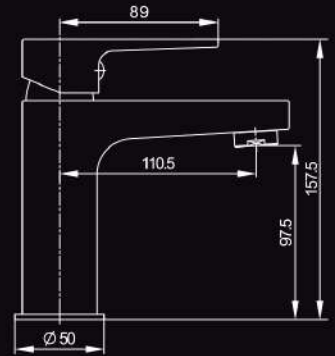

*Rubine faucets, uniquely yours.*

*Water efficiency* : 2 ticks(very good)  
*Registration Nos* : SKT/BT-2012/010345  
*Water consumption* : 4.40 litres/min

*Choosing the right faucet for your kitchen and bathroom appears to be easy but in reality, it entails a meticulous process if one wants to ensure that the faucet selected blends into the décor and is easy to use. Among the usual factors to be considered when looking for a suitable faucet are the number of handles, the type of finishes, the design of the spout and the water efficiency level of the faucet.*

*STILE 9000 series, along with other Rubine faucets, features a single lever design, as preferred by most consumers. Single lever is user-friendly, where the water flow rate and water temperature can be controlled by merely adjusting the lever to the left, right, up and down. Easy manipulation of water flow rate exemplifies considerate design of the STILE 9000 series. Besides, STILE 9000 series brings along an extra credit with water saving feature that has passed stringent test (WELS with 2 ticks).*

*Designed by 2012 Red Dot Award Winner Mr Neeko, the STILE collection is aimed at the trendy and affluent target audience who appreciates aesthetics that's cleverly combined with everyday practicality. Triple plating of nickel and chrome, as well as a 35mm KCG Ceramic Faucet Cartridge sustain a longer using. Made of high quality brass and fine lustrous coating, each faucet stands as a piece of modern art.*

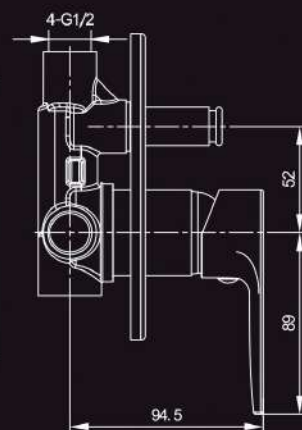

*STILE 9000, exclusively-designed for efficient chic urban lifestyle.*
