

* Measured in Millimeters (mm)

* Product dimension is for reference only.

As any plumber will tell you, the faucet or tap is one of the most important and functional fixtures in the plumbing system, and with today's lacking skill installer, the cost of replacing a washing machine tap may be higher than the cost of the tap. Thus, it is important to pick a reliable brand or easy to replace design so that you can change it yourself. At Rubine, we know the link and FRESCO is our first series of cold tap that was developed base on friendly design and quality. It features a brass cartridge that was tested to 50,000 times to ensure it's quality and water-saving aerators to conserve water consumption.

25mm slim flat bottom

Product Information

Model	FRESCO A97310
Material	Brass
