Single handle faucet was introduced into the market in 1950; immediately, it has become popular in the industry. It was easy to use, the price was right and the design was versatile. PLATINO is the evergreen series of Rubine single-handle faucet, the shape and style may look simple but it is loaded with good features. It starts with the metal handle for durability, water-saving aerator that can save you over 100 gallons of water per year, and its ceramic cartridge enhanced movement also guarantees smooth operation for many years to come. Visit our website to discover the full collections of our single-handle faucets.

40mm flat bottom

### Product Information
