## 3321

Body: 35mm  
 Type of product: Basic Mixer  
 Water efficiency: 2 ticks (Very good)  
 Registration Nos: BST-2012 / 009762  
 Water consumption: 2.80 litres / min

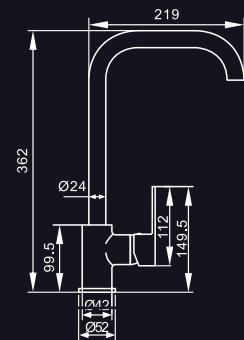

## 3321-C

Body: 35mm  
 Type of product: Basic Cold Tap  
 Water efficiency: 2 ticks (Very good)  
 Registration Nos: BST-2012 / 009763  
 Water consumption: 3.00 litres / min

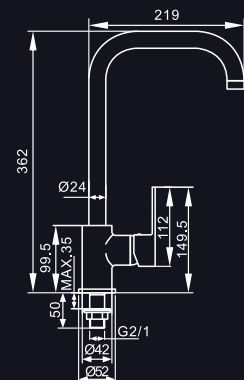

## 3344

Body: 35mm  
 Type of product: Sink Mixer  
 Water efficiency: 3 ticks (Excellent)  
 Registration Nos: SKT / BT-2012 / 010282  
 Water consumption: 3.80 litres / min

## 3344-C

Body: 35mm  
 Type of product: Sink Cold Tap  
 Water efficiency: 3 ticks (Excellent)  
 Registration Nos: SKT / BT-2012 / 010284  
 Water consumption: 3.70 litres / min

*Choosing the right faucet for your kitchen and bathroom appears simple but in reality, it entails a meticulous process if one wants to ensure that the faucet selected blends opulently with the decor and is easy to use. Among the usual factors to be considered when looking for a suitable faucet are the number of handle, the type of finishes, the spout design and the water efficiency level of the faucet.*

*The design of RUBINE faucets takes into consideration the preferences of consumers and to facilitate easy decision making by consumers, all RUBINE faucets are incorporated with single lever. The single lever faucet design is extremely popular among consumers.*

*It is easy to use and even children and elderly find it a breeze to use them. To set the water temperature, the user just needs to turn the lever to the left for hot water and right for cold water.*

*Lifting the lever up and down adjusts the water flow rate. Once the lever is adjusted to the position where the water flow rate and temperature are ideal, the user can just leave the faucet lever in that position while using the water. Above all, single-lever faucet is easy to install because only one hole needs to be punched on the countertop (for kitchen faucet) or two holes on wall (for shower faucet or bath faucet).*

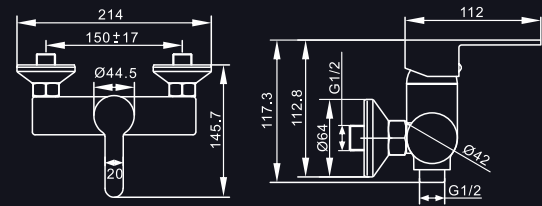

*Piccoli, another new RUBINE faucet series, which comes in 35mm body, is characterized by its simple yet elegant and versatile design.*

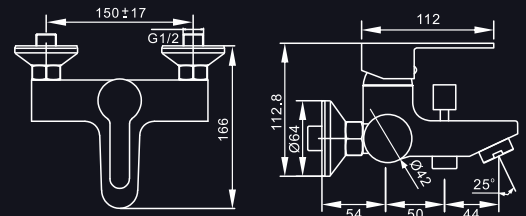

## 3360

Body: 35mm  
 Type of product: Shower Mixer  
 Water efficiency: 2 ticks (Very good)  
 Registration Nos: SHT-2012 / 009765  
 Water consumption: 6.00 litres / min

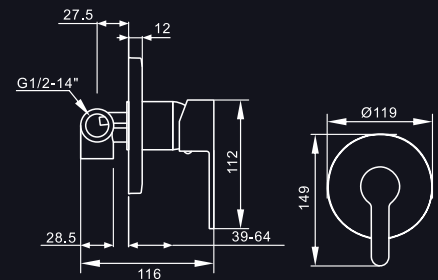

## 3361

Body: 35mm  
 Type of product: Bath Mixer  
 Water efficiency: 2 ticks (Very good)  
 Registration Nos: SHT-2012 / 009764  
 Water consumption: 6.10 litres / min

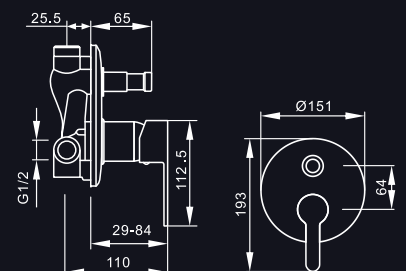

## 3368

Body: 35mm  
 Type of product: Concealed Shower Mixer  
 Water efficiency: Not required to submit  
 under the MWELS

## 3369

Body: 35mm  
 Type of product: Concealed Bath Mixer  
 Water efficiency: Not required to submit  
 under the MWELS
