**Modern Revolution of Bathroom**

Bathroom is our latest sanctuary, a place where we start and end our day, which gives us an embracing sensation of home. From the shower area to the toilet, every minor detail is important towards the design of a modern and homely bathroom.

At Rubine, we know that toilet is the heart of the bathroom. Hygiene, water-saving, contemporary design and good quality are the few essential criteria when we design our toilets. Thus, from the selection of earth & glaze to the height of the pan, our design team has studied them attentively in order to achieve in all its aspects.

Proudly, we have come out with 4 series of toilet of different aesthetic and configured with top-graded seat cover that is scratch resistance and flame retardant and vortex flushing system which consumes less water. Coupled with our choices of stainless steel bathroom accessories creates a classic and pleasant atmosphere in your bathroom.

With Rubine toilet, it is an answer to a modern revolution of your bathroom.

# OUR UNIQUE REVOLUTION

## Large Diameter Trap-Way

48mm trap-way diameter to provide a smooth flushing that effectively prevents jamming or secondary flushing

## Easy Installation

Standardize all WCs trap dimension for easy installation and also, avoid any blockage

## Unique Design

A unique water trap design to avoid bad smell occurred during each flush

## Vacuum Test Process

Vacuum test on all Rubine WCs by computerized imaging to ensure no hidden crack line in between spaces

## High Temperature Porcelain

Fired at a high temperature of 1240 °C to ensure the porcelain is hard & bonded strongly together

## High Quality Surface

Apply a special glazing formula protected the WC surface from scratches and easy to clean

## 100% Clean Water

Vortex flushing system replaced 100% of trapped water per cycle to prevent growth of bacteria

## Ergonomic Sitting Posture

Design seat-height at 390-420mm to accommodate the most ergonomic sitting posture

## High Quality Seat Cover

Top-grade seat cover which is soft-descent, scratch resistance and flame retardant

## Minimum Water Consumption

Vortex flushing system enables a good transportation of wastes with minimum water consumption

# R. ISOLE SERIES

Is a masterpiece of engineering and design. Breakaway from conventional round shape design, its unique slight square and clear-line body contour is definitely a true revolution of a new age toilet. Coupled with Vortex flushing system, this toilet has achieved a high water conversation of WELS in Singapore.

It comes in 3 models of different type of installations; wall hung model for those who want a clean look in their bathroom and traditional floor mounted model with S-trap connection and P-trap connection for those homes with concealed wall sewage.

All in one, the R.Isole is an elegant and superior piece of toilet that describes your delicate personality.
