A New Ultimate

The modern arts of vitreous china

OUR STORY

Rubine has had a presence in hundreds of thousands of bathrooms since 1999. Its products are created for living and made to fit the daily life of generations of families. No matter what is the style, we endeavor to fit in and leave a forever look in your bathrooms. From this purpose comes the idea of our new vanity basins – to develop with different colors, shapes, sizes, and types of installation. Thanks to the selection of premium quality ceramic, it is lighter, stronger, and offers greater versatility in design; the glazed enamel finish is smooth, wear-resistant, easy to clean, and gives you a basin that will look new for years to come. At RUBINE, timeless design is at the heart of every product.

HYGIENE GLAZE

Hygiene Plus Technology

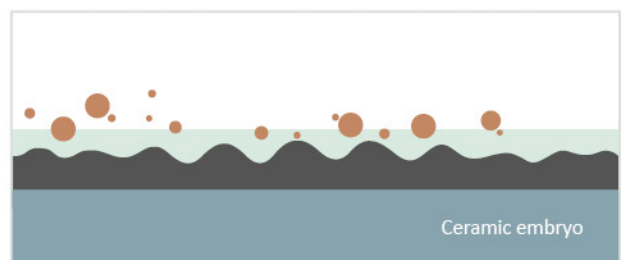

It is important for ceramic products to have a hygienic surface in terms of health and the environment. Rubine offers an easy-to-clean glazed surface through its Hygiene Plus Technology which applied a nano-sized coating at 1280o C high temperature on the baked surface. Once the clay and glaze are vitrified and integrated into one, the basin surface is smooth, hard, even, and high density.

Hygiene Plus Technology

The surface is always smooth and shiny. Dirt & stain can be conveniently removed after each use and keep the surface clean and hygienic.

Ordinary ceramic glaze

The glazed surface is concave and convex. Dirt and stain will sit in and bacteria will start to grow, visible ugly marks will start to appear on the surface in due course.

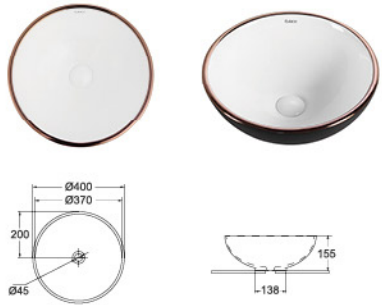

Let's
SPIN...

Round – The basic architectural element behind the inspiration of all the bathroom designs; it is versatile and presents an auspicious sign of completion.

SPIN is a series of circular countertop basins that has remained the most preferred basin and an all-time favorite by homeowners.

SPIN 40M

SPIN 36B

QTRO 60M

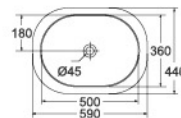

With its rounded corners and characteristic curve, **QTRO** rectangular-shaped countertop basin is ideal for modern and contemporary bathroom design. With Hygiene-Plus innovative surface finishes; reduces cleaning effort, improve hygiene, and increase product life span.

BOAT 59-BK

Are you looking for a unique washbasin?
 We recommend the **BOAT** series from Rubine as it can add an unusual twist to your bathroom.
 This oval-shaped countertop basin is a stylish addition to any bathroom renovation or new home.

BOAT 52-BW

BOAT 40

BOAT 49

SQ 45

SQ 42M-BK

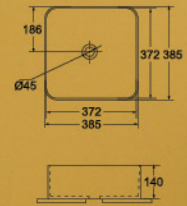

SQ 42M

SQ series of basins are designed in a modern square shape. Made from high-quality vitreous china with a high gloss white finish, the basin is perfect for countertops and is best complemented with a tower basin mixer. With its beautiful clean line, it brings elegance and creates a new lightness in your bathroom.

SQ 40-BW

It is not oval, it is not rectangular. We name it **EVEA**.
 This countertop basin features a smooth rounded shape and is designed to be mounted onto any worktop console, is a representation of modern classic.

EVEA 60M

EVEA 56-BK

EVEA 50M

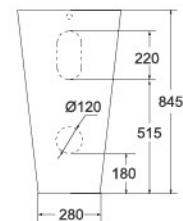

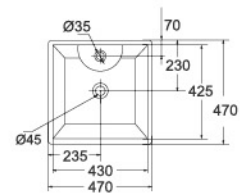

VENTO 50M-BK

Just a simple wall-hung basin coupled with a designer bottle trap is the most original way of decorating your bathroom. If you pair the basin with a matt black faucet, it will give you a boutique feel in your bathroom. **VENTO** basin brings you back to basic.

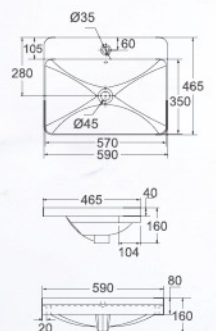

Individuality. The **ZENTO** range of pillar basins sets a new standard of minimalist and comfortable bathroom design. This freestanding high-quality ceramic basin is easy to install and is suitable for both indoors and outdoor.

RIFF is a series of semi built-in washbasin that comes in different sizes. It is designed to project out from your counter and maximize space. Functional and stylish looking that can easily blend into any bathroom concept.

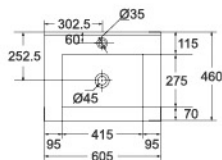

RIFF 59M

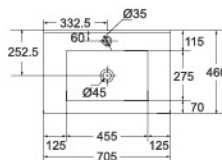

TOP

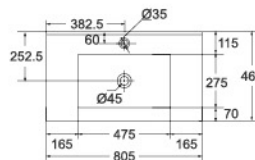

TOP series is the most recognized vanity basin in the world. Not only its commercial value, but its slim-edged design also matches well with any vanity cabinet. It comes in 3 popular sizes, 600mm, 700mm, and 800mm with a tap-hole and overflow.
