## Our Inspiration

---

The Two Towers is the most prominent tower in Bologna city, Italy. Built-in the 12th Century by two powerful families, Asinelli and Garisenda; and its marvelous design has also initiated the birth of the Rubine BO 3100 series.

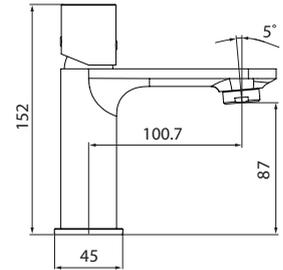

Slender and in cylindrical shape like a tall tower reaching the sky is a perfect balance between a modern design and shape. The BO (Bologna) series is in line with the latest color trend in particular the use of 2-tone like Black and Rose Gold, and an electroplated finishing also ensures better surface coating and greater abrasion resistance, and daily wear and tear. The shape, design, and choice of colors making this series versatile and adaptable to different bathroom solutions.

Colors – The two-tone color in a product is a new trend; the effect is striking, colorful, and personal. The BO series is designed as a dual-color faucet. It is simple, just a small Allen Key, and a 10 minutes work; you can transform it into a black and rose gold or chrome and black faucet.

We design to match – A two-toned tower mixer will need a matching color countertop basin. Thanks to the third firing process, a technique that enables an extremely high level of customization, combines superb image quality and definition with the eloquent power of colors that gives access to a previously inaccessible luxury design. The pair makes an impeccable statement in your bathroom.

Dark drama—Black is certainly a statement color choice for the bathroom, but many of us would stay away from this color worrying that it may appear stark. At Rubine, we see how black can be used to achieve a cozy and intimate feel by pairing a rose gold handle to the black bath mixer, BO 3161.

Hidden beauty – Exposed pipework is unsightly and it can ruin the overall look of your bathroom. Hiding the pipes in the wall, although it is a costly option, will make a huge difference to the look of your bathroom. Choose the concealed bath or shower mixer of the Bologna series, its geometric shape will complete the clean & modern design of your bathroom.

# FUTURE

KITCHEN

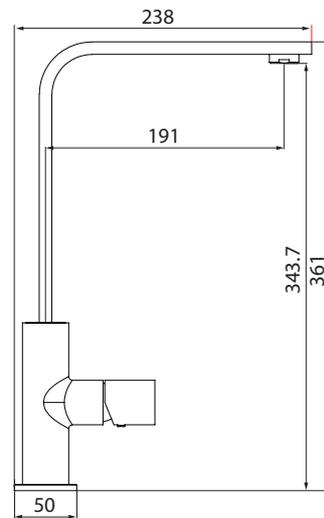

Minimalist and Modern— The sink tap is an essential fixture in your kitchen as it not only serves the purpose of giving you water but also can add to the décor and style. BO 3147 is a unique sink mixer in matt black or glossy chrome; designed without a handle and a tall spout of 360mm enables the washing of any big wok.

BO 3147-BK.G

Contactless- Amid the coronavirus pandemic, we tend to spend more time in the kitchen and it's important to safeguard the hygiene in it. The use of a Touchless-flow sink mixer, BO-3144AS, to activate the on/off function will lessen your contact with the mixer and help to reduce the spread of germs in the kitchen. It is safe, easy to use, and operated by 4 pieces of AA batteries; the handle can be used as a manual override when the battery runs low.

## Installation Layout

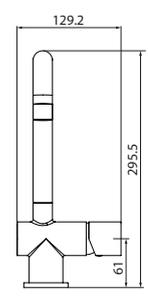

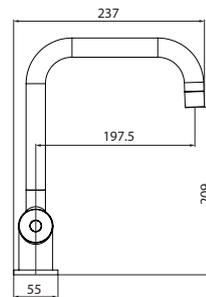

Mount the control box under the sink

Comfy 120 – From the inspiration of the Two Towers, our design team continues to produce products that look simple but functional. This sink tap is the last add-on to the Bologna series, it is a tubular shape sink mixer with a 120° radius turn spout to ensure it covers every part of the sink and the on/off handle is at the tip of the spout which can conveniently reach.
