Storage Water Heater

ARCH ANALOGUE 15L/30L

ARCH ANALOGUE water heater has a contemporary design with built-in Fairwater sleeve, a device that produces 20% more hot water and equips with a 2500 watts heating element, it heats up water in less than 15 minutes. Fast & save, it is the best seller in its category.

Product Features

Global Standard For Antibacterial Efficacy

Arch series has achieved global standard for antibacterial efficacy that keeps the product safe and reliable by suppressing the growth of bacteria.

Sapphire Enamelling Heating Element

Perform best even under high temperature and pressure conditions.

Thicker Magnesium Anode

27% thicker magnesium anode ensures a longer tank life.

Fairwater Sleeve

Cold water is marshalled effectively resulting in 20% more hot water output rate.

Independent Thermo Cut-Out

Independent thermo cut-out protects water heater from overheating.

Overall Polyurethane Foam

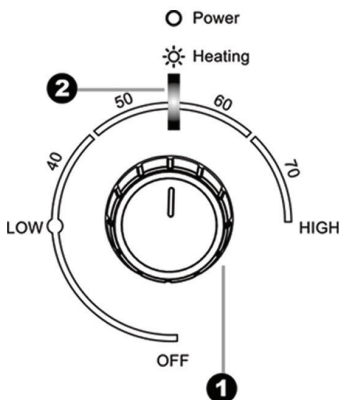

Keeps the water warm and minimises heat loss. Save 30% more energy!

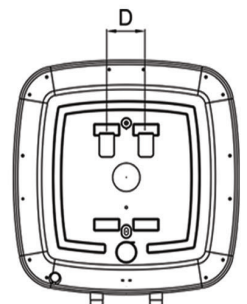

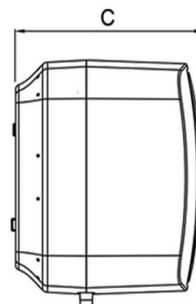

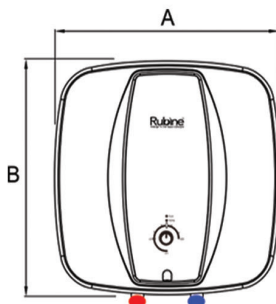

Sapphire Enamelling Tank

European Enamel Technology extends tank life.

How to Operate

1. Set the temperature by rotating the knob between LOW and HIGH.
2. The light will turn RED during heating. When the desired temperature has been reached, the light will change to GREEN.

Technical Data

Model No.	Capacity (L)	Colour	Rated Power (W)	Rated Voltage (V)	Frequency (Hz)	Rated Pressure (MPa)	Max of water temperature (°C)	Waterproof Grade	Net Weight (kg)	Product Dimension (mm)			
										A	B	C	D
RWH-AR15A Sin 2.5W	15	White	2500	220-240	50/60	0.8	75	IPX4	9.29	380	380	312	66
RWH-AR30A Sin 2.5W	30	White	2500	220-240	50/60	0.8	75	IPX4	13.52	455	455	388	66

SLIM HORIZONTAL 20L

SLIM HORIZONTAL 20L water heater is designed to install at tight slab, the modern slim compressed body with a stylish hot/cold indicator and coupled with Japan Antibacterial Efficacy (AG+) & Titanium tank will certainly make it a centrepiece in your bathroom.

Product Features

Global Standard For Antibacterial Efficacy

Arch series has achieves global standard for antibacterial efficacy that keep the product safe and reliable by suppressing the growth of bacteria.

Sapphire Enamelling Heating Element

Perform best even under high temperature and pressure conditions.

Thicker Magnesium Anode

27% thicker magnesium anode ensures a longer tank life.

Fairwater Sleeve

Cold water is marshalled effectively resulting in 20% more hot water output rate.

ARCH REMOTE 15L/30L

ARCH REMOTE embraces all the fantastic features of the ANALOGUE model and it is also the first electric storage water heater that equips with a remote control function and pre-set timer; it saves up to 21% in energy cost with intelligent timer.

Product Features

Intelligent Timer

It allows you to preset the time and temperature.

Remote Control

Long-range wireless control with exclusive infrared remote control.

Temperature Display

LED displays water temperature at the centre part of the tank.

Global Standard For Antibacterial Efficacy

Arch series has achieved global standard for antibacterial efficacy that keep the product safe and reliable by suppressing the growth of bacteria.

Thicker Magnesium Anode

27% thicker magnesium anode ensures a longer tank life.

Independent Thermo Cut-Out

Independent thermo cut-out protects water heater from overheating.

Sapphire Enamelling Tank

European Enamel Technology extends tank life.

Sapphire Enamelling Heating Element

Perform best even under high temperature and pressure conditions.

Fairwater Sleeve

Cold water is marshalled effectively resulting in 20% more hot water output rate.

Overall Polyurethane Foam

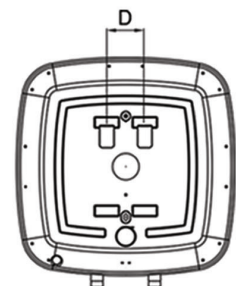

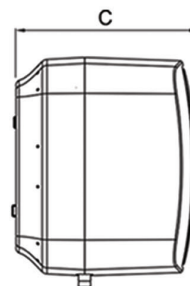

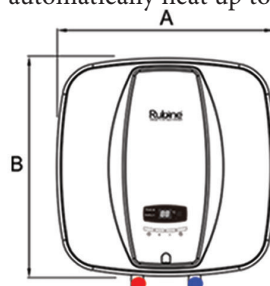

Keeps the water warm and minimise heat loss. Save 30% more energy!

How to Operate

Easy to control with wireless remote controller.

1. “-” to decrease the water temperature or time.
2. “+” to increase the water temperature or time.
3. “Timer” - Example if you set as 03,70°C, it means after 3 hours the heater will automatically heat up to 70°C.

RUBINE is a well-known and established Italian brand in the bathroom and kitchen industry. With more than 15 years of experiences, Rubine has a strong presence in numerous markets in the region, including Singapore, Malaysia, Indonesia and even Australia. Known for its contemporary design, innovation, functionality and quality, Rubine continues to develop products which will not only embellish your homes but also offer practical benefits.

PRODUCT CHARACTERISTICS

Hygienic Water

Japan antibacterial membership

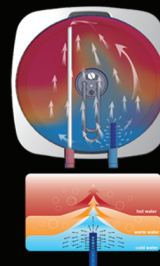

Antibacterial rate up to 99.9% : healthy and reliable

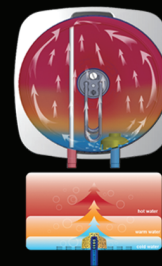

Energy Saving Technology

With the microcellular polyurethane foam technology, keep the water warm and prevent heat loss for long time

Add fairwater sleeve can increase more hot water

Normally
Cold water will impact the mixed layer

Add Fairwater Sleeve
Cold water can be marshalled effectively
improve about **20%** hot water output rate

Fairwater Sleeve*

Intelligent Heating

Save up to 21% in energy cost with intelligent timer

Durable Design

Sapphire Enamelling tank – 3 layers tank for anti-rust and anti-scald to guarantee a longer product life span – 7 year warranty on tank

Sapphire Enamelling stainless steel heating element – Best performance under high temperature and pressure conditions

MORE HOT WATER ENOUGH FOR EVERYONE

Tested by: CB TÜV
