Rimless

Funnel Flush  
3.0

Easy  
cleaning

Less water

Low noise

Hygienic

Soft-close

Elongated Pan

A great bathroom doesn't need a lot of space but it does need a great idea and a great product like Rubine's newly designed wall-hung rimless toilet – the Punta Nera series. This minimalistic-design WC is produced at high temperatures; its ceramic surface is formed with a less than 0.2% water absorption rate to ensure good hygiene and prevent the spread of bacteria. Rimless and Funnel Flush 3.0 is the new water-saving flushing technology; it enables the system to discharge the water with more force and in a more homogeneous way that improves the clean efficiency and reduces the noise. This toilet is supplied with a high-quality soft-close toilet seat and tested with Viega in-wall flushing system on performance and water consumption.
