RubineTM
Indulge in the Aqua Lifestyle

MODERN ELECTRIC SMART TOILET.

ANTONIO SERIES

The Antonio Smart Toilet is an innovative bathroom fixture designed to enhance comfort and hygiene. It features advanced technology, including automatic flushing, a heated seat, and customizable bidet functions. With sensors that detect user presence, it offers hands-free operation, improving convenience and reducing the spread of germs. The toilet may also include features like air drying, odor elimination, and integrated night lighting. Its sleek design fits seamlessly into modern bathrooms, making it a popular choice for those looking to elevate their bathroom experience. Overall, the Antonio Smart Toilet combines luxury with functionality, promoting a cleaner and more comfortable environment.

Rubine™
Indulge in the Aqua Lifestyle

Motion-Detect Seat Cover

Equipped with motion sensors to detect user presence and automatically open the toilet cover for you. This hands-free feature reduces contact, promoting better hygiene and minimizing germ spread.

Rear & Front Bidet Function

This dual-cleansing bidet spray designed for men and women enhances user experiences; it is hygienic and reduces toilet paper usage, making it ECO-friendly.

Heated Seat

Antonio smart toilets boost comfort with features like a heated seat, providing warmth, especially during cold weather or in an air-con bathroom.

Night Light

The night light offers convenience and safety with a soft glow, aiding night time navigation, reducing accidents, and adding modern sophistication to the bathroom.

ECOMatic Tornado Flushing

This flushing is smooth, automatic, and quiet; it combines a powerful Tornado performance on a rimless toilet, and uses less water.

Self-Clean & Anti-Bacterial Nozzle

Our bidet nozzle is crafted from materials that inhibit bacterial growth. It automatically cleans itself before and after each use, ensuring it remains sanitary and has no residues.

Auto Close Seat Cover

Experience the ultimate convenience with our smart toilet's auto-close seat and cover, ensuring a hygienic and effortless closure after every use.

Diatom Deodorization

Diatoms have great adsorption abilities. They not only capture odorous particles but also transform harmful ones into oxygen particles. This creates an oxygen-rich environment, ensuring a consistently fresh bathroom.

Air Blower

Equipped with an air blower to gently blow warm air to dry the user after the cleansing, this feature eliminates the need for toilet paper.

Plasma Sterilizing

Plasma sterilizing eliminates pathogens using ionized gas, enhancing hygiene and user experience in Antonio smart toilets.

Manual Flush

Even during a power failure, you can flush your Antonio smart toilet like a traditional toilet, ensuring hassle-free use at all times.

Foot Sensor

Simply touch the surface with your foot to effortlessly open or close the toilet cover and seat, thanks to our convenient foot sensor.
