From handshower to rainshower with  
NO power tool required.

## MAY 520 RAINSHOWER COLUMN

The MAY 520 rainshower column elevates your shower experience with 5 distinct spray patterns, allowing for a customized and luxurious experience. Its ease of installation is a standout feature, fitting seamlessly into existing hand shower setups with hole heights between 400-685mm, eliminating the need for additional drilling. Designed with water efficiency in mind, the MAY 520 boasts a 3-tick WELS rating, meeting Singapore's standards. Backed by a 7-year warranty on the diverter, this product ensures a reliable and enjoyable shower experience, combining luxury and convenience.

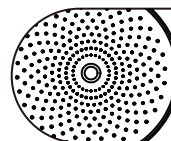

Use the old holes  
in the wall.
